

Coming Soon

Burton springs will soon have its own **Facebook** Page so that facebook users can follow all the action. We will keep you informed of when that's up and running.

Xmas Gift Ideas

We are in the process of arranging delivery of our own **Hoodies** and **Polo Shirts**. These will be stocked in our shop if you want to take a look and buy or we can post to an address of your choice subject to P&P and card payment. Keep an eye on emails and the website for further details. As always, **Gift Vouchers** can be purchased for all fishing.

Xmas Social

We are hoping to hold a couple of days over the festive season for all anglers to call in and fish or just visit and join us for refreshments again this year, weather permitting. We will keep you informed of dates and would love to see as many of you as possible.

The lake is now clear of weed and is producing tench to 5lbs, perch to 2.5lbs, carp to 16lbs and various smaller but rapidly growing bream, crucians, skimmers, roach and rudd. The lake is proving very successful with anglers of all abilities, including fly anglers.

Young Ben Mc Call had a fantastic, if unexpected, session when he landed a 22lb grass carp! However, we believe there may be another monster in there as a holidaymaker from Minehead was broken up by something large which refused to be brought in, despite determined efforts.

Ben's
22lb
Grass
Carp. Well
done Ben
😊

Match fishing

The coarse lake is an ideal venue for match fishing. We are able to offer 12 swims and will be happy to discuss requirements for anyone wishing to organise their own matches, either informally among friends for fun or for club fishing. We are also happy to discuss packages to include breakfasts etc. Please call to discuss further; we will make every effort to accommodate.

News from the Specimen Lake

The lake continues to fish very well and the result of netting earlier in the year is that virtually every carp banked is double figure. We are also seeing several very nice other specimen fish being landed, including a 5.5lb eel! Perch fishing is particularly good just now with perch to 4+lbs being caught. Cell based boilies are still working well on the lake and carp are also showing interest in Matrix, a tuna based boilie. Our regular customers will be aware that we are trying to obtain two 30lb + English carp which, when achieved, will be a great addition to the present stock. We will, of course, let you know when they've arrived.

Exclusive Bookings

As always, the lake is available to book for exclusive use; maybe you are looking for a venue for a Christmas gathering of friends or family? New Year is historically the time for booking next year's holiday and if you're thinking of booking the whole lake then early booking is advisable, so don't delay calling to discuss requirements.

Anglers Mail

Brian Gay continues to support us with a recent mention of the quality of both the specimen and coarse lakes but did anyone read the large article about fishing small carp waters? Brian recorded 3 days fishing with Simon Springell and Jason Carr and the finished article was well worth a read and once again did us proud. Our thanks to all.

Catch News

Goodness, where to start. There has been so much fantastic fishing on the lake and many personal bests have been broken, meaning lots of happy carpers! Our website photos give you a taster. Sadly, it just isn't possible for the site to hold all your photos but please still send them to us as they are all retained in our records. Nor is it (unfortunately) possible to list here all the great catches but worth a mention are Daniel Murphy's 27.5lb Mirror (Daniel and Wayne Tealey had a blinding session); James Moore's weekend bag included five carp all over 20lb. Martin's 24.5lb Mirror and Jason's 23.5lb Mirror (on the pole) gave plenty to smile about.

The 5.5lb eel from the specimen lake

An immaculate Common landed in the summer

General News

As already mentioned, the new lodges are up and in use. We now have a reception area and shop where various end tackle for fly, coarse and specimen anglers can be purchased. A good selection of bait is offered including freezer fresh Cell, Matrix and Grange boilies. You can also purchase snacks, bottled water and cold drinks and the new toilet is in use with the shower to follow shortly. This means that the existing lodge is still available to be used as a social and classroom area which is good to have, particularly in inclement weather. It's all looking very good and so far we've received great feedback, which makes the hard work all worthwhile! Do come and have a look sometime.

Also, if you have any used tackle to sell we are happy to allow postcard adverts in the lodge for a small weekly charge of 50p. Please ask or call for more details.

Finally, we would like to wish everyone a very Merry Christmas and Happy New Year from us all. We look forward to seeing you here.

Adam, Dave and Sue
